ABOUT ME

Iam a computer science graduate and an aspiring web developer, currently interning at Luminar Technolab. I enjoy creating user-friendly and responsive websites. I love learning new technologies and want to keep improving my skills to build better web experiences.

EXPERIENCE

Design Lead (Clubs):

2021 - 2024

Led the creation of promotional materials for events, including designing logos, and posters. In branding and collaborated with the team to deliver creative solutions.

Picture Editor (Startup):

2023 - 2024

ASSISTREND

Edited images to meet the requirements for various projects, ensuring they aligned with the brand's standards. I worked with the team to deliver high-quality visuals under deadlines.

Digital Marketing Intern:

2022 - 2023

ACADEMOR

Assisted with basic market research and helped manage social media platforms. Gained experience in content creation for campaigns and observed performance metrics to suggest possible improvements.

ADDITIONAL EXPERIENCE

• NSS Volunteer :

Actively participated in NSS activities, contributed to organizing events like cleanliness drives and health awareness programs.

• IEEE Volunteer :

Volunteered in various IEEE activities and events, ensuring their smooth execution.
